

We are a leading provider of Aeronautical Information Management (AIM), Aeronautical Message Handling (AMHS/CIDN/AFTN) Systems as well as Integrated Aerodrome Control Tower Systems and a company of the Indra S.A. group in Spain.

In order to support the world-wide success of our innovative products, we are looking for a talented and motivated **Maintenance Technician** to join a dynamic Spanish-German team. Participate in the creation of high-tech solutions and products in the fast growing and exciting environment of the aeronautical industry.

## Maintenance Technician (m/f)

In your role as Maintenance Technician you will be responsible for the hard- and software maintenance of a complex helicopter simulator developed by Indra S.A.

You should be a highly enthusiastic person with good communication skills, a can-do attitude and a passion for technology. You should have a knowledge in computer maintenance, software installation and operative systems (windows and Linux), speak English and German fluently (Spanish is of advantage). Experience in simulators maintenance would be appreciated. Last but not least you should be able to work in any shift of the day.

The job location will be Donauwörth, Germany.

As an Investor in people this vacancy offers you a unique opportunity to join an expanding organization that prides itself on building brilliant IT solutions with other experts in a multi-cultural, international and highly rewarding working environment! Get in touch...
